Jasmine F. Magtanong

Computer Science undergraduate · Holy Angel University

Pampanga, Philippines
jasminemagtanong04@gmail.com

Computer Science undergraduate who builds web and mobile software and cares whether it holds up under pressure. Looking for a 2026 OJT in frontend, mobile, QA, or backend work.

EDUCATION

BS Computer Science · Holy Angel University 2023 — present

Dean's List. Coursework: data structures, databases, software engineering, networking.

SELECTED PROJECTS

ViVy — receipt verification for GCash 2025

Flutter, Python, OCR. Validates receipt structure and flags edited or reused screenshots before a seller hands anything over.

Cardbound — trading ledger for Magic: The Gathering 2025

React. A three-list trade ledger built to be readable on a phone lying flat on a card table.

Glide — student org join + announcements 2025

Flutter, Dart, Firebase. One-time student join flow, group announcements, and a separate admin roster with member count and removal.

Jeep Box Hero — OPM record-store game 2025

Godot, Aseprite. Visual direction and build: a record shop, multiple OPM genres, and customers searching for the right sleeve.

SKILLS

Languages	JavaScript, Python, Java, C++, C#, Dart, SQL, HTML / CSS
Build	React, Flutter, Firebase, Node.js, Figma, Supabase
Systems & data	OCR pipelines, REST APIs, SQLite, Git / GitHub, API testing (Postman), Linux
Practice	Requirements gathering, code review, technical writing, accessible design, Agile delivery

CERTIFICATIONS

CompTIA — IT Fundamentals (ITF+) · 2025

Cisco — Data Analytics Essentials; AI Fundamentals with IBM SkillsBuild; Endpoint Security; JavaScript Essentials 1 & 2; CCNA: Introduction to Networks; Cyber Threat Management; Introduction to Data Science

freeCodeCamp — Relational Database; Responsive Web Design (2024); JavaScript Algorithms and Data Structures

AWS — Academy Graduate, Cloud Foundations (2025)

CURRENTLY LEARNING

Game development — Unity with C++ and C#. Building toward future game projects, with a focus on gameplay systems and small, finished loops.
